Notes to the Condensed Consolidated Interim Financial Statements

For the Six Months Ended June 30, 2022 and 2021

(Expressed in Canadian dollars)

1. NATURE OF OPERATIONS AND ABILITY TO CONTINUE AS A GOING CONCERN

Lara Exploration Ltd. (the “Company” or “Lara”) was incorporated under the British Columbia Business Corporations Act on March 31, 2003. The Company’s principal business activities are the acquisition, exploration and development of mineral properties in South America, currently with exploration and evaluation properties in Brazil, Peru and Chile. These Interim Financial Statements are comprised of the Company and its subsidiaries. The Company’s common shares are listed on the TSX Venture Exchange under the symbol of “LRA.”

The Company is in the process of exploring its exploration and evaluation assets and has not yet determined whether they contain reserves that are economically recoverable. The recoverability of amounts shown for exploration and evaluation assets is dependent upon the discovery of economically recoverable reserves, the ability of the Company to obtain the necessary financing to complete their exploration and development, confirmation of the Company’s interest in the underlying claims and leases, ability to obtain the required permits to mine and future profitable production or proceeds from the disposition of these assets.

These Interim Financial Statements are prepared on a going concern basis, which assumes that the Company will be able to meet its obligations and continue its operations for its next fiscal year. Realization values may be substantially different from the carrying values shown, and these Interim Financial Statements do not give effect to adjustments that would be necessary to the carrying values and classification of assets and liabilities should the Company be unable to continue as a going concern. The Company’s continuing operations and the ability of the Company to meet mineral property and other commitments are dependent upon the ability of the Company to continue to raise additional equity or debt financing and to seek joint venture partners. At the date of these Interim Financial Statements, the Company has not identified a known body of commercial-grade mineral on any of its properties. The Company has not achieved profitable operations and has accumulated losses since its inception.

Statement of Compliance

These Interim Financial Statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) and interpretations of the International Financial Reporting Interpretations Committee (“IFRIC”).

2. BASIS OF PRESENTATION

Basis of Presentation

These Interim Financial Statements have been prepared in accordance with the same accounting policies and methods of application as the most recent audited consolidated financial statements for the year ended December 31, 2021, except that they do not include all the information required for the annual consolidated financial statements. These Interim Financial Statements should be read in conjunction with the audited consolidated financial statements of the Company for the year ended December 31, 2021.

Basis of Consolidation

These Interim Financial Statements comprise the accounts of the parent company, and its subsidiaries, after the elimination of all material intercompany balances and transactions.

Planalto Copper Project

In February 2013 (amended in June 2016 and June 2019), the Company entered into an option agreement to acquire a 100% interest in the Planalto Copper Project from Brazil Americas Investments & Participation Mineracao LLC (“Brazil Americas”) by paying US\$500,000 in cash and a 2% NSR royalty. The Company completed the acquisition by making payments totalling US\$250,000 (\$316,783) during the year ended December 31, 2021. Lara has the right to acquire 50% of the NSR royalty for US\$2,000,000.

On October 30, 2018, Capstone Mining Corp. (“Capstone”) signed a letter of intent with Lara to option the Planalto Copper Project and made a payment of US\$150,000 (\$197,854) to Lara. The option payment was first applied against the capitalized value of the Planalto Copper Project in the amount of \$127,486, with the balance of \$70,368 recorded as a recovery of exploration expenses.

On February 4, 2019, the Company announced that it had signed a definitive agreement (“the Agreement”) (amended on June 20, 2019, and February 21, 2021) granting Capstone an exclusive option to earn up to a 70% interest in the Company’s Planalto Copper Project. Capstone paid Lara a further US\$200,000 following receipt of a drill permit for the Project and assumed the costs of the underlying agreement. Capstone can earn an initial 49% interest by paying the Company US\$5,000,000 by the third anniversary of the Agreement and can then elect to purchase an additional 2% interest in the Planalto Copper Project by paying Lara US\$400,000 and committing to fund a Feasibility Study by the fifth anniversary, to reach a 61% interest. The third and final phase will comprise Capstone electing to finance, build and operate a commercial mining operation for the benefit of Lara 30% and Capstone 70%, with Lara repaying its pro-rata share of the financing out of production cash flow.

Lara will hold certain buy back rights to reacquire a majority interest in the Project should Capstone decide to discontinue investing.

Lara elected to accelerate the drill program at the Planalto Copper Project and, on May 28, 2019, filed a “Final Exploration Report” (“RFP”) with the National Agency of Mining (“ANM”) in Brazil. On June 20, 2019, Lara and Capstone amended their Agreement such that the initial three-year earn-in period for Capstone to acquire a 49% interest in the Planalto Copper Project now starts from the date of approval of the RFP and the 2019 drill program as fulfilling Capstone’s first-year work commitment. Capstone transferred US\$500,000 to Lara upon

the signing of the amendment to cover the payment to Lara due upon receipt of the permit to drill, the payment due to the underlying vendor and a partial reimbursement of Lara's costs. The RFP was approved on October 31, 2019, and Capstone reimbursed Lara the additional costs of US\$600,000. The remaining conditions of the agreement are unchanged, and exploration work resumed in November 2019. Capstone advanced a further US\$400,000 to Lara in November 2019 to fund ongoing project expenditures. For the year ended December 31, 2021, Capstone advanced US\$1,790,000 (2020 - US\$800,000) for work on the Planalto property.

In August 2020, Lara entered into an option agreement to acquire mining rights adjacent to the original Planalto Project from Mineracao Zaspir Ltda. ("Zaspir"). Lara agreed to acquire a 100% interest in these mining rights for payments totalling US\$250,000. The first US\$25,000 was paid upon signing the option agreement, and the Company will pay a further US\$25,000 upon filing the license transfer to Lara. Lara must pay an additional US\$100,000 on the first anniversary of the application to transfer the mining rights. A second US\$100,000 payment must be made on the second anniversary of the application to transfer the mining rights. In addition to the cash purchase price, the Company will grant Zaspir a 2% NSR royalty on any production, which can be repurchased for US\$250,000 within 2 years of granting the exploration license. After the two-year period has passed, one-half of the royalty (1%) can be purchased for the same price. On February 8, 2022, Lara and Zaspir amended their agreement to bring forward the payments, with US\$50,000 paid on signing and US\$75,000 paid upon publication of the transfer, completed on February 24, 2022. The remaining amount of US\$100,000 is payable by January 1, 2023.

In December 2020, the Company signed an option agreement with Mineração Tariana Ltda. ("Tariana"), a subsidiary of Anglo American do Brasil Ltda., to acquire an exploration licence adjacent to the Company's Planalto Copper Project ("the Project") in the Carajás Mineral Province of northern Brazil. Under the terms of the agreement, the Company will make a payment of US\$50,000 upon the date of publication of the transfer of title by the Brazilian Mining Agency ("the ANM") and payments of US\$50,000 on the first and second anniversaries of that date. The Company has committed to complete a minimum of 2,000 metres of diamond drilling together with resource and reserve studies by May 2022. On July 26, 2021, Lara and Tariana agreed to an amendment to the agreement, moving the deadline to complete the drilling and studies to May 16, 2023. The Company then has until the date of filing the Final Exploration Report with the ANM to notify Tariana of its intention to exercise the option and put the project into production. The Company will pay a 1.25% NSR royalty to Tariana on production. If the project is not operating from July 31, 2026, at such date, the Company will make advanced royalty payments of US\$50,000 per year for five years or until the start of production if that is sooner, which amounts are recoverable from 50% of the royalties payable to Tariana thereafter. The transfer of the license to Lara's subsidiary Planalto Mineracao was published on March 9, 2022, and the initial US\$50,000 payment has been made. The Tariana license and the Zaspir license form part of the Company's staged earn-in agreement with Capstone Mining Corp.

Cumaru Manganese Royalty

On May 20, 2019, the Company signed a definitive agreement transferring all its rights and obligations for the Cumaru Manganese Project in northern Brazil, to local mining company Seven Mineração Limitada, in exchange for BRL 250,000 in cash (equivalent to approximately US\$60,975) and a royalty of US\$2/ton of ore taken from the property. The Company has received the first BRL 125,000 payment. The second payment was due on July 19, 2020, but is still outstanding, and accordingly, no amount receivable has been recorded.

Liberdade Copper Project

In May 2022, Lara was advised by partner Codelco do Brasil Mineração Ltda. (“Codelco”), that the court has given a positive ruling in the lawsuit defending the validity of its Liberdade exploration license with the Brazilian Mining Agency (“ANM”). The Company considers the ruling favourable but understands that it is being appealed by the ANM.

Peru

Kenita (Puituco) Property

As at December 31, 2019, the Company had incurred filing and land fees to acquire exploration licenses for Puituco (\$26,240). During the year ended December 31, 2021, the Company signed a mining rights transfer agreement with BHP World Exploration Inc. Sucursal del Peru to acquire the Kenita property in exchange for a commitment to pay a 1% net smelter returns royalty on any future production. The Kenita property consists of five exploration licenses which are adjacent to and surround the Puituco licenses.

Mantaro Project

During the year ended December 31, 2021, the Company incurred \$34,068 of acquisition costs on the Mantaro licenses in Peru.

Corina Gold Project

In July 2014, the Company signed a definitive agreement with Compañía Minera Ares S.A.C. (“Ares”), a subsidiary of London-listed Hochschild Mining plc. (“Hochschild”), granting it an option to purchase Lara’s Corina Gold Project in southern Peru. Upon the signing of the agreement, Lara received US\$150,000. Under the proposed terms, Ares can acquire the Corina property from Lara for staged cash payments totalling US\$4,150,000 (of which US\$650,000 has been paid to date), carrying out US\$2,000,000 in exploration (which has been completed) and paying a 2% NSR royalty on any future production. In October 2016, Ares signed a community agreement supporting their application to conduct drilling on the property and made a cash payment of US\$150,000 to Lara. In June 2020, Ares made a scheduled option payment of \$457,654 (\$US350,000) to Lara. The payment was recorded as other income. The schedule for the remaining option payments has been amended as follows:

	US\$
August 4, 2021	1,000,000
July 4, 2022	1,250,000
July 4, 2023	1,250,000
	3,500,000

In July 2022, Hochschild relinquished its option to purchase the Corina gold-silver discovery. Lara and Hochschild intend to complete the hand-over by late August, with Hochschild remaining responsible for the environmental restitution from its 2020-21 drilling program.

3. EXPLORATION AND EVALUATION ASSETS (continued)***Lara Copper Project***

In July 2020, the Company, with its partner, Global Battery Metals Ltd. (“GBM”), signed an option and royalty agreement for the sale of the Lara Copper Project (the “Project”) for US\$5,759,000 and a 1.5% NSR royalty, to Minsur S.A. (“Minsur”). The Project is owned 45% by Lara and 55% by GBM. Minsur retains the right to purchase a 0.25% NSR royalty for US\$2.5 million from each of Lara and GBM at any time before the commencement of commercial production. Under the terms of the agreement, Lara and GBM have granted Minsur an exclusive option to acquire a 100% interest in the Project by making staged cash payments based on permitting milestones, as summarized in the table below:

Fair Value

Financial instruments measured at fair value on the consolidated statement of financial position are summarized into the following fair value hierarchy levels:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The carrying value of receivables, accounts payable, and accrued liabilities approximated their fair value due to the short-term nature of these instruments. The Company's level 3 investment is a right to a 5% interest in the proceeds from two lawsuits. Cost is the best measure of fair value. Financial instruments measured at fair value on the condensed consolidated interim statements of financial position are summarized in levels of fair value hierarchy as follows:
